

Stow Recreation is excited to partner with Mad Science this summer to bring your child a week full of learning, play, and fun with our Sprouting Scientist Program!

Your child will become a junior scientist for the week, having the opportunity to experience real, live science! Mad Science explores the way things grow in this “down-to-earth”, half day preschool camp. Learn about plants by dissecting seeds, making leaf rubbings, and creating farmable fruit and veggie prints. Investigate the world of worms...yes, WORMS! Put on your Bee-autiful Bug Costume and flutter by as you learn about one of a flower’s favorite pollinators! Come see what the buzz is all about!
